## Evolution International S.r.l.

# COMPANY PROFILE

**EVOLUTION INTERNATIONAL S.R.L. IS ONE OF THE FASTEST GROWING AIRSOFT AND RECREATIONAL SHOOTING COMPANIES IN THE WORLD.**

Its commitment to provide customers with the best products and service made Evolution International S.r.l. gain a strong and valuable reputation worldwide.

The Evolution International S.r.l. brands are always associated with high levels of quality and performance.

Evolution International S.r.l. started its business nearly two decades ago as sole distributor of the major and most respected brands of the airsoft industry, it soon entered into worldwide exclusive agreements with valuable real gun manufacturers to manufacture official firearm replicas.

In the year 2010 Evolution International S.r.l. presented at the international firearms exhibition IWA2010 & Outdoor Classics the prototypes of the first models to be released under its flagship brand Evolution Airsoft, launching them in the market at the beginning of 2011.

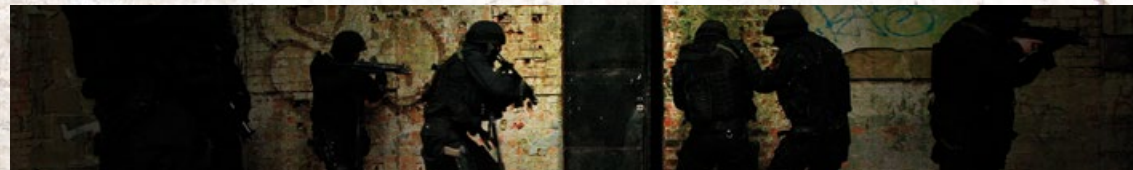

The Evolution International S.r.l. products line then expanded at a very fast rate and today covers any type of products necessary to the airsoft player, from the guns to the riflescopes, batteries, BB's and tactical gear.

**IN THE 2018 A NEW MILESTONE HAS BEEN SET IN THE EVOLUTION INTERNATIONAL S.R.L. GROWTH PATH WITH THE PRESENTATION AT THE IWA2018 & OUTDOOR CLASSICS OF THE FIRST LINE OF GUNS ENTIRELY DEVELOPED AND MANUFACTURED IN ITALY BY EVOLUTION INTERNATIONAL S.R.L.**

## Evolution International S.r.l.

# WORLDWIDE EXCLUSIVE LICENSES

### Z-M Weapons®

Manufacturer of the legendary LR-300, the first major break-through in the firearms industry in the last 50 years, the LR-300 is the most versatile AR style tactical rifle designed for Special Forces.

### Lone Star Tactical Supply®

Founded by Shooters for Shooters, based in Texas, U.S.A., brings innovative products to the market with the intention of giving 100% satisfaction to the customers with everything they offer.

### TangoDown®

TangoDown Inc. enjoys over ten years of bringing the highest quality products to United States Armed Forces and Law Enforcement. Their reputation for unique design and quality manufacturing of weapon components has earned TangoDown Inc. first choice when it comes to stepping into arms way.

### DSR Precision®

Manufacturer of the DSR-1, the most advanced military sniper rifle system in the world. The DSR-1 is capable to successfully engage targets at a distance of over 2.5 Km.

### ADC Custom Guns®

Worldwide famous Italian "tailor made" defence arms manufacturer. The ADC Custom Guns are among the most-wanted firearms in the world. The ADC brand is synonymous of great quality, prestigious fire-arms built with first-class components and extremely tight tolerances.

### ADC Armi Dallera Custom®

Worldwide renowned manufacturer of "Special Duty" firearms. Tailor made guns and parts for special purpose are designed and built to meet the strict specifications of the Special Operation guys and famous shooting champions.

### Sarsilmaz®

Sarsilmaz Fire Arms Industry has started its manufacturing activities in the end of 1800s, becoming the sole private corporation in Turkey to manufacture pistols, military weapons and hunting shotguns.

### Dallera Custom®

Dallera Custom is a brand of the first manufacturer of customized handguns in Europe. Owning a Dallera Custom gun is a long-lasting investment. Dallera Custom race pistols are the guns of choice of the champions of IPSC, IDPA, European Championship and Bianchi Cup.

### Dallera Tactical®

Dallera Tactical develops for high performance demanding customers special long and short firearms for tactical uses.

# PLAYERS' NEEDS

EQUIPMENT**

# ARE A DUTY FOR US

## Evolution International S.r.l. MEET ALL OUR BRANDS

### Evolution Airsoft®

The Evolution Airsoft brand redefined the quality/price ratio by merging very high quality products, ultimate realism, high performance to competitive prices. Manufacturer under worldwide exclusive license of the famous LR-300 and Lone Star Tactical rifles, Evolution Airsoft earned on the battlefield an always growing number of enthusiasts.

### Xtreme Precision®

Xtreme Precision is the leading brand of BB's in Europe. Perfect sphericity, very low tolerance, regular and full biodegradable versions have exactly the same astonishing precision. This determined the incredible success of this brand. The declaration of conformity and the certification number are printed on each bag.

### Mimetix®

The Mimetix Biodegradable BBs are Certified 100% Biodegradable and their unique special Camouflage Pattern makes them totally invisible when on the ground, giving the benefit to the user of a true zero visual impact. They are the major innovation in the BB's industry over the last 10 years. The declaration of conformity and the certification number are printed on each bag in 4 languages.

**OFFICIALLY LICENSED  
REPLICAS**

### Target BBs™

The Target BBs are designed for those users particularly sensitive to the price tag but requiring good shooting consistency. The Target BBs have a perfectly polished and seamless surface, and no air pockets inside. To meet the different requirements from the war-game players the Target BBs are available in white color and tan color and in regular and biodegradable version.

SPHERE

### Sphere

The Sphere BB's are among the best BB's on the market. Excellent quality, high performance. These are the BB's for those looking at the same time for competitive price and quality.

### Phantom®

The Phantom brand revealed to be an incredible sales success straight from the beginning. The Phantom products line includes an impressive quantity of products that range from air soft guns to tactical equipment, riflescopes, protection glasses, rail systems and red dots. Excellent quality, super competitive prices and a very big choice of products. This is the secret of Phantom's success.

### Black River™

Black River is the line of high quality tactical gear designed to meet and exceed the operator needs. The excellent quality of the textiles used, together with the durability over use and abuse makes the Black River the tactical gear of choice for war game enthusiasts and professional operators.

### Action Gas™

Action Gas is a new type High Pressure Gas (HPG™) especially formulated to deliver the best performance on Hot and Cold weather. The Action Gas is formulated with silicon oil to extend the service life of o-rings, gas valves and hop up packing. Made in Europe, certified UN1950, fully compliant with the European laws.

### Combat Gas™

The Combat Gas comes in a micro size 120 ml bottle containing 100 ml of the special formula HPG™ gas with silicon oil. This micro bottle was designed to fit the size of a standard M4 magazine pouch as well as the majority of the tactical vest pouches available on the market. The Combat Gas frees the players from the bulky cans and allows them to extend limitless their shooting capacity. Made in Europe.

# Z-M Weapons LICENSED MASTERPIECE

LR-300 SERIES

The Evolution Airsoft Hardcore Series LR-300 is the official airsoft replica of the real LR-300, produced under worldwide exclusive license granted to Evolution International S.r.l. by Z-M Weapons, U.S.A. The LR-300 features exactly the same logos and trademarks as the real gun counterpart whose design has been accurately reproduced in the airsoft version using the real gun blueprints and taking measurements directly on the real LR-300. We can easily say that the Evolution Airsoft LR-300 is the most detailed and realistic airsoft replica today available on the market.

## LR-300 GEAR BOX

The Evolution Airsoft Hardcore Series LR-300 is equipped with a mechanically advanced reinforced gearbox which is based on a patented design with the extra addition of the strongest and most durable piston today available, featuring steel metal teeth for unmatched durability under high-stress conditions. The reinforced steel gears run on strong and durable oversized 9mm steel ball bearings and a new designed tappet plate ensures smooth operation at high rate of fire. The LR-300 is LiPo ready.

LR-300

HARD CORE SERIES

## LR-300 RDS STOCK

## LR-300 ELECTRIC BLOWBACK

The Rapid Deployment Stock (RDS) is one of the main features of the LR-300 and one of the main differences between an LR-300 and a traditional AR style rifle. The smooth action of the real stock has been faithfully reproduced and the airsoft stock unfolds using just one hand like the real one, allowing the tactical carry of a very compact

gun and a rapid one-hand unfolding movement when immediate action and rapid target acquisition is required. The LR-300 RDS stock is fully foldable and five length positions adjustable, making the LR-300 the most versatile AR style gun ever made.

In order to make possible the use of a fully folding stock on an AR style rifle, Z-M Weapons modified the traditional Stoner design shortening the bolt-carrier and relocating the recoil spring over the barrel, allowing to completely remove the buffer tube (DIGS System).

This feature has been fully replicated in the Evolution Airsoft LR-300 featuring a working replica of the DIGS System which is integral part of the electric powered Blowback System. During the blowback action the

bolt carrier, the gas-system and recoil spring placed over the barrel, blow-back adding an unparalleled realism. The Blowback System is two positions adjustable for two levels of recoil intensity and rate of fire. In the LR-300 the realism is pushed to the ultimate level, the field-strip system of the blowback mechanism has been fully replicated allowing the user to access and disassemble it just like the real gun.

Lone Star  
Tactical Supply

# FOUNDED BY SHOOTERS FOR SHOOTERS

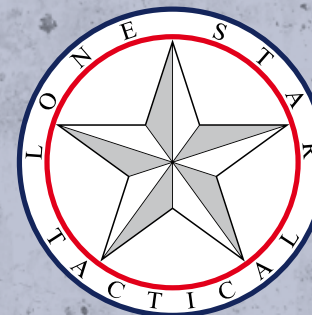

EVERY LONE STAR  
TACTICAL AIR SOFT  
GUN FEATURES  
LICENSE TRADEMARKS  
AND UNIQUE SERIAL  
NUMBER.

LONE STAR TACTICAL SUPPLY, BASED  
IN TEXAS, U.S.A., was founded by  
shooters for shooters. Founded by  
Dale Hunnicutt and Gary Burris,  
two avid shooters who brought to  
the firearms competitive market  
revolutionary products with the  
intention of giving 100% satisfaction  
with everything they offer.

Lone Star  
**STUNNING  
REALISM**

Lone Star  
**TUNED  
UP  
GEAR  
BOX**

After just few months since its  
release the Evolution Airsoft  
Lone Star Tactical series was clear  
to be one of the most successful  
air soft guns series in the world.  
The reason of this, stunning  
success? The 360° quality.  
Starting from the package to the  
smallest part inside the gearbox,  
every component screams "top  
quality", and quality means high  
performance and dependability,  
which is exactly what the  
professional airsofters are  
looking for. All components  
are pre-upgraded and  
nothing less the  
best on the  
market.

## ADC Armi Dalleria Custom ITALIAN BLACK RIFLE

**IF YOU ARE LOOKING FOR THE BEST IN GUNS MAKING YOU HAVE FOUND THE RIGHT COMPANY.**

ADC Armi Dalleria Custom S.r.l. is a leading European manufacturer of custom guns, born from the needs to produce high precision handguns for those professional and non professional users who are looking for the maximum performance possible from a firearm. At ADC all workings are hand-made and have one only goal: ensure the maximum shooting accuracy. Couplings with near to zero tolerances, top quality materials and a touch of genius, the ADC weapons can achieve incomparable results, impossible to obtain from standard mass-produced firearms.

## ADC Armi Dalleria Custom A SURE INVESTMENT THROUGH THE TIME

**ADC  
ITALY**

The ADC production ranges from race pistols to self defense handguns and tactical weapons for special duties. The choice is up to you! If you want something really special, you have found the right place. In 1987 started the professional career of Roberto Dalleria, the founder of ADC: custom gunsmith maker of sporting, competition and defensive handguns. A true new job, not only in Italy but also in the rest of Europe, where the gunsmith work was at that time confined only to rifles and shotguns, mostly without improving the performances. The 1990 was the breakthrough year, when it was founded the ADC Armi Dalleria Custom as a manufacturer of custom designed handguns for defensive and sporting purposes, the very first European pistols custom maker. Year by year the range of guns produced evolved, due also to the contribution of Cristian Dalleria, Roberto's son, and his passion for tactical firearms. Today ADC Armi Dalleria Custom is the leading and most prestigious manufacturer of Italy, of special firearms based on the AR15 platform.

The ADC brand is now synonymous of high quality, prestigious firearms built with high-grade components with extremely low tolerances, both in the classical, competition and tactical models. Buying an ADC gun became a sure investment through the time.

ARMI DALLERA CUSTOM

**ADC  
SERIES**

**IT IS FROM THE COOPERATION BETWEEN EVOLUTION AIRSOFT AND ADC ARMI DALLERA CUSTOM THAT THE WORLD OF AIRSOFT AND REAL GUNS MET TOGETHER BRINGING TO LIFE THE ADC PROFESSIONAL AIR SOFT GUNS SERIES.**

# TangoDown ENHANCED COMBAT RIFLE

Evolution Airsoft has entered in a worldwide exclusive licensing agreement with TangoDown® Inc. and is proud to bring to the Air Soft world the replicas of the TangoDown ECR (Enhanced Combat Rifle).

TangoDown® Inc. enjoys over ten years of bringing the highest quality products to United States Armed Forces and Law Enforcement.

Their reputation for unique design and quality manufacturing of weapon components has earned them first choice when it comes to stepping into arms way. TangoDown® constantly shoot, train and listen to operator's needs.

Their goal is to make the warrior's weapon lighter and more efficient, whether a pistol, carbine or belt fed machine gun.

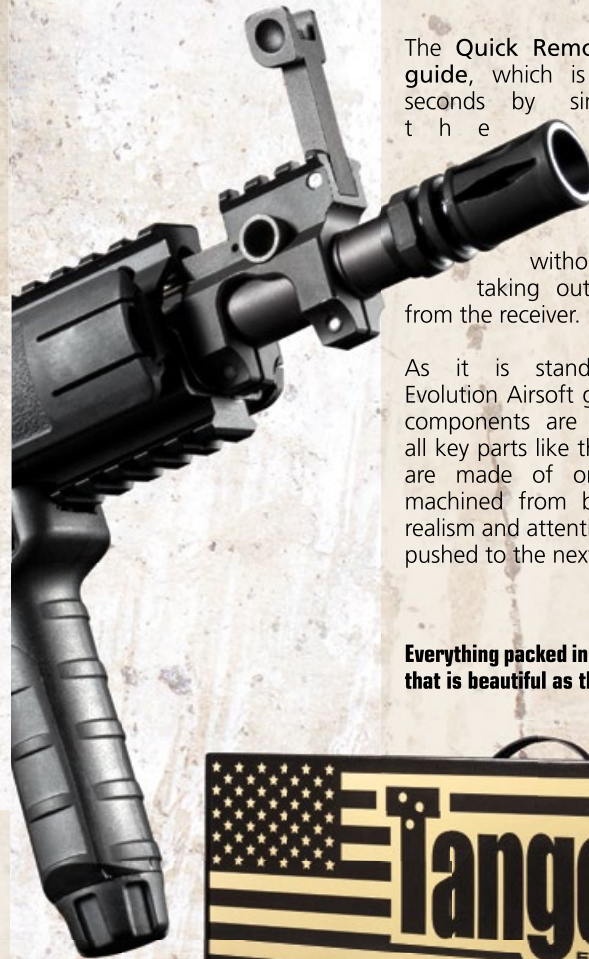

With the TangoDown ECR series Evolution Airsoft introduces a new type of gearbox in their products line. The new gearbox comes standard with an Integrated Mosfet Unit and Quick Removable Spring Guide.

## TangoDown A NEW TYPE OF GEAR BOX

# TangoDown

The **Mosfet Unit** increases the duration and reliability of the trigger switch eliminating the problems caused by the "electric arc" which is typical of standard trigger unit designs. At the same time the more efficient electric flow management increases the Rate of Fire.

The Quick Removable spring guide, which is accessible in seconds by simply removing the buffer tube, allows the immediate access to the main spring without the need of taking out the gearbox from the receiver.

As it is standard on any Evolution Airsoft gun all internal components are pre-upgraded, all key parts like the outer barrel are made of one piece cnc machined from billet, and the realism and attention to details is pushed to the next level.

Everything packed in a top quality box that is beautiful as the gun inside!

# Evolution Airsoft E.T.S.™ ELECTRONIC TRIGGER SYSTEM

**THE EVOLUTION AIRSOFT E.T.S.™ IS AN ADVANCED DEVICE USING STATE OF THE ART TECHNOLOGY COMPATIBLE WITH MOST V2 GEARBOXES WITHOUT THE NEED OF ANY MODIFICATION.**

Before its release in almost 2 years of development it went through a number of improvements and modifications from its original design and the version we are now releasing is actually the Third Generation with several hardware improvements and V5.2.3 software run by our very powerful CPU and supported by our Oversized Mosfet Unit™.

The E.T.S.™ is easy to install and easy to program, detailed instructions are provided with the product. Unexperienced users are supported by on-line tutorials.

With the E.T.S.™ you can easily program how your gun will shoot, you'll be able to program your rifle to shoot a burst of 3 BB's or any other number of BB's from 1 to 250, this means you'll also be able to set your gun to be semi auto only or to limit the amount of BB's shot with one trigger pull to simulate the use of low capacity magazines, it is up to you to decide, the software doesn't give you any limitation.

With the E.T.S.™ your Lipo battery is safe, no more damages, no more ballon as the result of over-discharging. The E.T.S.™ incorporates a programmable Lipo Protection function, you can protect your 7.4V, 11.1V or even 14.8V batteries!

**E.T.S. Electronic Trigger System  
+ Oversized Mosfet Unit Full Set**

EA0158E

**E.T.S. Electronic Trigger System**

EA0159E

**Oversized Mosfet Unit Full Set**

EA0160E

Returning to the gun's standard operation is as easy as program it.

Replacing your standard trigger with the Evolution Airsoft's E.T.S.™ you'll also say good-bye to the burned switches problem as the current will flow through a very powerful **Oversized Mosfet Unit™** that can be placed inside the buffer tube or even inside the gearbox as its design has been optimized to be very compact.

The E.T.S.™ is sold as a complete unit with the Oversized Mosfet™ and everything you need to install it, or alone, in case your gun already has a mosfet installed, as the E.T.S.™ software is capable to drive also third party mosfets.

The E.T.S.™ has been completely designed, manufactured and quality controlled in Italy, and as a premium feature it comes in a mini custom hardcase

manufactured on purpose for Evolution Airsoft by **Negrini, the Italian signature hard case manufacturer.**

**E.T.S.™

# The new Evolution Airsoft LIPO ULTRAPOWER BATTERIES

Evolution Airsoft has just released its new line of Ultrapower Batteries, an extensive line of high performance batteries designed for those customers who don't need just a battery but require top performance in any situation.

Powerful! The new 7.4V and 11.1V LiPo batteries feature compact dimensions but at the same time are very powerful thanks to the high power density. With their 40 C peak discharge they can instantly deliver the current demanded by any type of motor, even on super-tuned air soft guns.

Great choice. The new battery range includes batteries of multiple sizes, shapes and configuration in order to be able to fit any air soft gun on the market.

## THE COMBAT SERIES

HIGH STANDARD SET UP  
FOR BEGINNERS AND EXPERIENCED PLAYERS.

# COMBAT series

The Combat Series rifles are designed with today's wargame players in mind and make an extensive use of lightweight alloys or engineering polymers. The total weight is surprisingly low even on those models with a "heavy" look.

The Combat Series rifles offer right out of the box what most of the other brands sell as "upgrades" or "option parts". Don't be surprised when you open the box to see a load of extra accessories included along with the gun including the revolutionary tool-less access to the motor compartment and a real Quick Access spring guide that allows to swap the main spring in seconds in order to easily adapt the shooting performance to the game.

The Combat Series rifles are the best choice for those wargame players looking for reliable, performing, complete, yet affordable products.

# BLACK<sup>TM</sup> RIVER

The Black River<sup>TM</sup> tactical gear line has been designed to meet the requirements from the professional operators and the demanding Milsim players.

High quality and attention to the details, this is what makes the difference!

The Black River<sup>TM</sup> products have an higher overall quality compared to the competition, and the small details that make the difference, like the reinforcing stitches all around the laser-cut ports, a small detail that could mean completing or not your mission.

Check out the whole range on
